

Program

SUNDAY, 20 July

- 16:00-22:00 *Registration*
19:00-22:00 *Welcome Party*

MONDAY, 21 July

- from 8:30 *Registration (and during the breaks)*
9:00-9:25 *Opening*
- Session 1 Chair Henrik Enghoff*
9:25-9:50 Joe **Hannibal** *presents* The millipede fauna of the Carboniferous (Stephanian) locality of Montceau-les-Mines, France
9:50-10:15 Megan **Short** *presents* Polyxenida of the Caucasian region
10:15-10:40 *Coffee Break*
10:40-11:05 Zoltán **Korsós** *presents* The millipedes of Palau
11:05-11:30 Stelios **Simaiakis** *presents* Biogeographical patterns in the distribution of European centipedes
11:30-11:55 Natdanai **Likhitrakarn** *presents* Taxonomy, distribution and conservation of millipedes in Thailand
11:55-12:20 Blanka **Ravnjak** *presents* Overview of current state of research on centipede in Slovenia
12:20-13:30 *Lunch*
- Session 2 Chair Zoltán Korsós*
13:30-13:55 Elena **Mikhailova** *presents* Endemics in the millipede fauna of the Asian part of Russia
13:55-14:20 László **Dányi** *presents* Contribution to the knowledge on the geophilomorph centipedes of the Ryukyu Islands (Japan)
14:20-14:45 Roghaieh **Zarei** *presents* Geophilomorpha of Iran
14:45-15:10 Amazonas **Chagas-Jr.** *presents* Too many legs? A taxonomic review of the centipede *Scolopendropsis*
15:10-15:35 Cuong **Huynh** *presents* Description of a new species of penicillate millipede from the genus *Monographis* found in Vietnam
15:35-16:05 *Coffee Break*
- Session 3 Chair Jean-Jacques Geoffroy*
16:05-16:30 Dragan **Antić** *presents* Family Anthroleucosomatidae – a diversity hotspot on Caucasus
16:30-16:55 Sergei **Golovatch** *presents* The cave Diplopoda of southern China with reference to millipede diversity in Southeast Asia
16:55-17:20 Ana **Komerički** *presents* At the end of the rope: *Geophilus hadesi* n. sp. – the world deepest cave-dwelling centipede
17:20-17:45 Branka **Vode** *presents* Characteristics of centipede assemblies in some frost hollows in Slovenian Dinaric karst
18:30-22:00 *guided short tour into city centre and tasting beer in Svatováclavský brewery (free for accompanying persons)*

TUESDAY, 22 July

<i>Session 4</i>	<i>Chair Greg Edgecombe</i>
9:00-9:25	Andy Sombke <i>presents</i> Past and present – microCT analyses of extant and fossil myriapods
9:25-9:50	Nesrine Akkari <i>presents</i> Innovative approaches, interactive tools, modern imaging: pushing the boundaries of myriapod taxonomy
9:50-10:15	Pavel Stoev <i>presents</i> Blowing the dust off the old publications: an enhanced cybertaxonomic checklist of <i>Eupolybothrus</i>
10:15-10:40	<i>Coffee Break</i>
<i>Session 5</i>	<i>Chair Pavel Stoev</i>
10:40-11:05	Oliver Macek <i>presents</i> Cocktails and pills: A COI primer cocktail for pill millipedes
11:05-11:30	Thomas Wesener <i>presents</i> The GBOL – Myriapoda project: insights and shortcomings in the Barcoding of myriapods
11:30-11:55	Lucio Bonato <i>presents</i> Unlocking the diversity of European geophilomorph centipedes: from a consistent checklist to an interactive identification tool
11:55-12:20	Petr Dolejš <i>presents</i> Type specimens of centipedes in the National Museum, Prague (Czech Republic)
12:20-13:30	<i>Lunch</i>
<i>Session 6</i>	<i>Chair Thomas Wesener</i>
13:30-13:55	Nattarin Wongthanwanich <i>presents</i> Postembryonic development of the giant pill-millipede <i>Zephronia siamensis</i>
13:55-14:20	Jean-Francois David <i>presents</i> The life cycle of <i>Ommatoiulus sabulosus aimatopodus</i> in southern France
14:20-14:45	Cuong Huynh <i>presents</i> Segmentation and leg development in penicillate millipedes
14:45-15:10	Bojan Ilić <i>presents</i> Sexual body size and shape dimorphism in <i>Apfelbeckia insculpta</i>
15:10-15:35	Christian Kronmüller <i>presents</i> On the function of the ultimate legs in some Scolopendridae
15:35-16:05	<i>Coffee Break</i>
<i>Session 7</i>	<i>Chair Karel Tajovský</i>
16:05-16:30	Markus Koch <i>presents</i> Feeding mechanisms in myriapods: the evolution of tentorial mobility revisited
16:30-16:55	Vladimír Šustr <i>presents</i> Digestive enzymes in digestive tract of spirostreptid and spirobolid millipedes
16:55-18:30	<i>Poster Session</i>

WEDNESDAY, July 23

8:30-18:30 *Excursion*

THURSDAY, July 24

<i>Session 8</i>	<i>Chair Willi Xylander</i>
9:00-9:25	Günther Rasputnig <i>presents</i> Beyond benzoquinones: chemical diversity of defensive secretions in the Julida
9:25-9:50	Dragan Antić <i>presents</i> <i>Pachyiulus hungaricus</i> – a model-system for semiochemical analysis and antimicrobial testing
9:50-10:15	Grzegorz Kania <i>presents</i> Compounds of defensive secretion in millipede species of Julida
10:15-10:40	<i>Coffee Break</i>
<i>Session 9</i>	<i>Chair Markus Koch</i>
10:40-11:05	Carsten Müller <i>presents</i> The epidermal glands of Myriapoda: ultrastructural diversity, function and phylogenetic resolving potentials
11:05-11:30	Henrik Enghoff <i>presents</i> Ectoparasitic fungi (Laboulbeniales) on millipedes
11:30-11:55	Eivind Undheim <i>presents</i> Centipede venom evolution: casting light on a neglected group of venomous animals
11:55-12:20	Bojan Mitic <i>presents</i> Defensive secretion of proteinaceous glues by <i>Henia illyrica</i>
12:20-13:30	<i>Lunch</i>
<i>Session 10</i>	<i>Chair Bruce Snyder</i>
13:30-13:55	Irina Zenkova <i>presents</i> Diversity and distribution of centipedes in plain and mountain ecosystems of the Kola North
13:55-14:20	Pavel Nefediev <i>presents</i> A review of the anthropochore fauna of Asian Russia, with new records from the Altai Province, Siberia
14:20-14:45	Gabriella Papastefanou <i>presents</i> Centipede assemblages along an urbanization gradient in the city of Heraklion (Crete, Greece)
14:45-15:10	Jean-Jacques Geoffroy <i>presents</i> Building biodiversity in Paris area (France): green roofs and vegetated facades as habitats for myriapod and woodlice communities
15:10-15:35	Pavel Kocourek <i>presents</i> Millipedes of Prague (Central Bohemia)
15:35-16:05	<i>Coffee Break</i>
<i>Session 11</i>	<i>Chair Megan Short</i>
16:05-16:30	Karel Tajovský <i>presents</i> Climate and weather versus millipedes – a little story of <i>Cylindroiulus caeruleocinctus</i>
16:30-16:55	Irina Semenyuk <i>presents</i> Climatic factors and the ecological diversity of millipede communities in a latitudinal gradient
16:55-17:20	Dávid Bogyó <i>presents</i> Habitat associations of millipedes in a grassland-edge-forest complex
17:20-17:45	Stelios Simaiakis <i>presents</i> Modelling and predicting centipede species distribution in Norway
17:45-18:10	Ivan Tuf <i>presents</i> Bait traps for sampling soil dwelling myriapods

FRIDAY, July 25

- Session 12 Chair Amazonas Chagas-Jr.*
- 9:00-9:25 John **Lewis** presents On the consistency of some taxonomic characters in the Scolopendromorpha and comments on two problematic genera
- 9:25-9:50 Greg **Edgecombe** presents Species delimitation and phylogeography of *Newportia* in the Mesoamerican region and implications for widespread morphospecies
- 9:50-10:15 Warut **Siriwut** presents Morphological and molecular variation in the common large centipede *Scolopendra dehaani* in Thailand
- 10:15-10:40 *Coffee Break*
- Session 13 Chair Stelios Simaiakis*
- 10:40-11:05 Varpu **Vahterä** presents First molecular data and the phylogenetic position of the peculiar Borneo centipede *Edentistoma octosulcatum*
- 11:05-11:30 Laura **Del Latte** presents A molecular-based study on *Stenotaenia* species diversity and relationships in the Italian region
- 11:30-11:55 Thomas **Wesener** presents Steps towards a better supported phylogeny of the Diplopoda: additional morphological characters via modern imaging techniques
- 11:55-12:20 Jan Philip **Oeyen** presents The phylogeny of the pill millipedes: first insights and a basic framework
- 12:20-13:30 *Lunch*
- Session 14 Chair Nes Akkari*
- 13:30-13:55 Bojan **Mitic** presents Parental care in centipedes: a phylogenetic perspective
- 13:55-14:20 Boyan **Vagalinski** presents What is the value of non-gonopodal sexual characters in the systematics and phylogeny of the family Julidae?
- 14:20-14:45 Piyatida **Pimvichai** presents Systematics of the millipede family Pachybolidae, with emphasis on the Southeast Asiatic fauna
- 14:45-15:10 João Paulo **Peña-Barbosa** presents A phylogenetic framework of the family Chelodesmidae
- 15:10-15:35 Hans **Reip** presents *Loboglomeris rugifera* – an example of color polymorphism in Glomerida
- 15:35-16:05 *Coffee Break*
- 16:05-17:30 *CIM agenda & closing*
- 19:00-23:00 *Congress Dinner (not included in Fee)*
